I have over twenty years experience working with clients as an Illustrator, Character Artist, and Graphic Designer. I have ten years experience working in the Toy Industry in various design positions.

I obsess over detail and craftsmanship but I am good at knowing when to let it go. I enjoy taking direction as I feel that my growth as a designer is an ongoing journey and I will gladly take all of the pointers I can get. Put me on your team! I think that some of the best creations come from the collaboration of creative minds.

When I'm not busy playing with my six year old son, I obsess over my quilting projects and daydreams. I am a card-carrying Modern Quilt Guild member, music nerd, history nerd and complete and total mid-century design snob.

Hooray!

EDUCATION

B.F.A. Toy Design with Sustainability Minor from Otis College of Art and Design

A.A. Art History & Photography from El Camino College

SKILLS

Critical thinking is my super power! I really enjoy concepting, problem solving and finding the best way to tell the story. I am very fast in Illustrator and pretty good with graphics. I love Sewing, Painting, Sculpting and playing on the ground with toys.
